Greg, we are still waiting on EPA's 'OK' on our proposed plan as given to you on Monday, January 14th, to alleviate the conditional approvals on some of our 2008 HD families.

Since we have not heard back from you and considering the time constraints of implementing the proposed plan, we are progressing down a path with the assumption that EPA will approve. We have no other choice. Any forced changes to our plan will severely limit our ability to implement a workable solution on time.
